27. [] LIAISON Received a call from Mark Lowenthal, Library of Congress, asking for an unclassified briefing on SALT verification. After checking with [] NFAC/CS []
I told Mr. Lowenthal that SALT verification is axiomatically classified and that I did not think that we could help him on an unclassified basis. 25X1
✓ He then suggested that he could send us a letter asking some specific questions on SALT verification and any answers that we could go back with would be most welcome. I said that we would be pleased to review his questions and, with those in hand, could make a better determination of which, if any, could be handled on an unclassified basis. Apparently 25X1
he will forward a letter.
